## Section VIII: Local Access Policy Agreement

In absence of a waiver permitting otherwise, every project seeking the assistance of the Onondaga County Industrial Development Agency (Agency) must use local general contractors, sub-contractors, and labor for one-hundred percent (100%) of the construction of new, expanded, or renovated facilities. The project's construction or project manager need not be a local company.

**Noncompliance may result in the revocation and/or recapture of all benefits extended to the project by the Agency. Local Labor is defined as laborers permanently residing in the State of New York counties of Cayuga, Cortland, Herkimer, Jefferson, Madison, Oneida, Onondaga, Oswego, Tompkins, and Wayne. Local (General/Sub) Contractor is defined as a contractor operating a permanent office in the State of New York counties of Cayuga, Cortland, Herkimer, Jefferson, Madison, Oneida, Onondaga, Oswego, Tompkins and Wayne. The Agency may determine on a case-by-case basis to waive the Local Access Policy for a project or for a portion of a project where consideration of warranty issues, necessity of specialized skills, significant cost differentials between local and non-local services or other compelling circumstances exist. The procedure to address a local labor waiver can be found in the OCIDA handbook, which is available upon request.**

Prior to issuance of any NYS Tax & Finance ST-60 forms, the Applicant must submit a **Contractor Status Report to the Agency.**

In consideration of the extension of financial assistance by the Agency Syracuse Haulers/Haulers Facility (the Company) understands the Local Access Policy and agrees to complete Appendix C of the Agency's application at the time of the application to the Agency and as part of a request to extend the valid date of the Agency's tax-exempt certificate for the Project. The Company understands that an Agency tax-exempt certificate is typically valid for 12 months from the effective date of the project inducement and extended thereafter upon request by the Company. The Company further understands that any request for a waiver to this policy must be submitted in writing and approved by the Agency.

I agree to the conditions of this agreement and certify all information provided regarding the construction and employment activities for the project as of 8/30/2022 (date).

## **Project Description**

Syracuse Haulers Waste Removal, Inc. (“Syracuse Haulers”) and Hauler’s Facility LLC (“Hauler’s Facility”) (collectively, "Applicants") are requesting assistance from OCIDA in the form of a PILOT, sales and use exceptions as well as a mortgage recording exemption. Due to the increase in material costs as well as supply chain issues, this expansion is significantly higher in cost than it would have been prior to the COVID pandemic; therefore, Applicants are seeking the assistance from OCIDA to ensure this project can be carried out. If OCIDA is unable to assist with incentives for this project the Applicants would likely significantly decrease the size of the expansion resulting in less job creation. OCIDA’s assistance will enable Applicants to , expand Syracuse Hauler’s footprint, acquire new equipment and increase its workforce.

Applicants intend to expand the existing 112,670 SF facility with a roughly 24,624 SF transfer station. Syracuse Haulers operates on three tax parcels owned by Hauler’s Facility (tax parcel ids: 033.-04-10.1, 033.-04-13.1 and 033.-04-10.3) with a combined acreage of approximately 14.03 acres. The three parcels will be merged to carry out the project based upon comments of the Town of Dewitt Planning Board.

The project calls for an investment of almost \$5 million in site work, construction of the transfer station and purchase of equipment. Equipment includes a baler, which is used for the final finished product generated in processing waste materials and will be located at the project site as part of ongoing operations.

Once completed the project will include the creation of 10 new full-time jobs over the next 3 years to add to its existing workforce of 78 FTE’s.

Syracuse Haulers has outgrown its existing facility and must expand in order to continue growing its business and serving its customers. The COVID pandemic brought on a number of challenges to our nation; including a labor shortage, which Syracuse Haulers, like many in its industry are still recovering from. Therefore, it is essential that Syracuse haulers, expand its footprint and purchase new equipment to increase the amount of material that can be processed. Without this expansion and purchase of equipment, Syracuse Haulers will be unable to maintain the volume of processed materials or expand its customer base, ensuring the viability of its company and workforce.

Syracuse Haulers hauls and recycles both single and dual stream waste as well as construction and household waste. Syracuse Haulers processes waste and recycles material, bailing the final product. Syracuse Haulers utilizes cutting edge technology to ensure that it maximizes recycling capabilities for the waste it collects. Syracuse Haulers provides LEED services for green construction projects that need to divert from a waste facility. To date they have completed over 25 LEED certified projects with a diversion rate of 84%. This is all done at its existing facility located on Thompson Road.
