OYA CAMILLUS A LLC

SEQRA RESOLUTION

(3101-20-16C)

A regular meeting of the Onondaga County Industrial Development Agency (the "Agency") was convened in public session, remotely by conference call or similar service pursuant to New York State Executive Order 202.94 on March 9, 2021, at 8:00 a.m., local time.

The meeting was called to order by the (Vice) Chairman of the Agency and, upon roll being called, the following members of the Agency were:

PRESENT:

Patrick Hogan Janice Herzog Victor Ianno Steve Morgan Kevin Ryan Fanny Villarreal

ABSENT:

Susan Stanczyk

ABSENT:

ALSO PRESENT:

Robert M. Petrovich, Executive Director

Kevin R. McAuliffe, Esq., Agency Counsel Amanda M. Fitzgerald, Esq., Agency Counsel

The following resolution was offered by Victor Ianno, seconded by Janice Herzog, to wit:

RESOLUTION OF THE ONONDAGA COUNTY INDUSTRIAL DEVELOPMENT AGENCY DETERMINING THAT A CERTAIN PROJECT FOR OYA CAMILLUS A LLC WILL NOT HAVE A SIGNIFICANT ADVERSE EFFECT ON THE ENVIRONMENT PURSUANT TO THE STATE ENVIRONMENTAL QUALITY REVIEW ACT

WHEREAS, Onondaga County Industrial Development Agency (the "Agency") is authorized and empowered by the provisions of Chapter 1030 of the 1969 Laws of New York, constituting Title 1 of Article 18-A of the General Municipal Law, Chapter 24 of the Consolidated Laws of New York, as amended (the "Enabling Act"), Chapter 435 of the Laws of 1970 of the State of New York and Chapter 676 of the Laws of 1975 of the State of New York, as amended, constituting Section 895 of said General Municipal Law (said Chapter and the Enabling Act being hereinafter collectively referred to as the "Act") to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing of manufacturing, warehousing, research, commercial and industrial facilities, among others, for the purpose of promoting, attracting and developing economically sound commerce and industry to advance the job opportunities, health, general prosperity and economic welfare of the people of

the State of New York, to improve their prosperity and standard of living, and to prevent unemployment and economic deterioration; and

WHEREAS, to accomplish its stated purposes, the Agency is authorized and empowered under the Act to acquire, construct, reconstruct and install one or more "projects" (as defined in the Act), or to cause said projects to be acquired, constructed, reconstructed and installed, and to convey said projects or to lease said projects with the obligation to purchase; and

WHEREAS, OYA Camillus A LLC, a Delaware limited liability company (the "Company"), has submitted an application (the "Application"), on behalf of itself and entities formed or to be formed on its behalf, to the Agency, a copy of which Application is on file at the office of the Agency, which Application requests that the Agency consider undertaking a project (the "Project") for the benefit of the Company and/or entities formed or to be formed on its behalf, said Project consisting of the following: (A)(1) the acquisition of a leasehold interest in a portion of an approximately 279.68 acre parcel of land located at 6327 Van Alstine Road (tax map no. 006.-04-12.1) in the Town of Camillus, Onondaga County, New York (the "Land"); (2) the construction on the Land of an approximately 30.45 acre solar power electric generating photovoltaic plant; (the "Facility"); and (3) the acquisition and installation therein and thereon of related fixtures, machinery, equipment and other tangible personal property (collectively, the "Equipment") (the Land, the Facility and the Equipment being collectively referred to as the "Project Facility"); (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the Act) with respect to the foregoing, including potential exemptions from certain sales and use taxes, real property taxes and real estate transfer taxes (the "Financial Assistance"); and (C) the lease (with an obligation to purchase) or sale of the Project Facility to the Company or such other person as may be designated by the Company and agreed upon by the Agency; and

WHEREAS, the Company has requested that the Agency enter into a payment in lieu of tax agreement (the "Proposed PILOT Agreement") with respect to the Project Facility; and

WHEREAS, pursuant to SEQRA, the Agency is required to make a determination with respect to the environmental impact of any "action" (as defined by SEQRA) to be taken by the Agency and the approval of the Project and grant of Financial Assistance constitute such an action; and

WHEREAS, to aid the Agency in determining whether the Project may have a significant effect upon the environment, the Company has prepared and submitted to the Agency an Environmental Assessment Form (the "EAF"), a copy of which is on file in the office of the Agency and is readily accessible to the public; and

WHEREAS, the Town of Camillus Zoning Board of Appeals ("ZBA") previously classified the Project as a Type I action under SEQRA and declared its intent to act as lead agency for the purpose of conducting a coordinated environmental review of the Project; and

WHEREAS, after conducting a thorough review of the Project and its potential effects, the ZBA determined that the Project would not result in any significant adverse environmental impacts and issued a negative declaration for the Project on March 2, 2021; and

WHEREAS, the Agency's involvement in the Project was not contemplated when the ZBA performed the coordinated SEQRA review and issued the negative declaration for the Project; and

WHEREAS, had the Agency's involvement been known at the time the ZBA declared its intent to act as lead agency for the coordinated review of the Project, the Agency would have, as an involved agency, consented to the lead agency designation by the ZBA and been bound by the negative declaration that was issued for the Project; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONONDAGA COUNTY INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

- (1) Based upon an examination of the EAF prepared by the Company, the criteria contained in 6 NYCRR §617.7(c), and based further upon the Agency's knowledge of the area surrounding the Project Facility, all the representations made by the Company in connection with the Project, and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings and determinations with respect to the Project pursuant to SEQRA:
- (a) The Project consists of the components described above in the third WHEREAS clause of this resolution;
- (b) The Project constitutes a "Type I" action (as said quoted term is defined in SEQRA);
- (c) The Agency, in recognition of the fact that it would have been an involved agency and consented to the ZBA's lead agency status, hereby reaffirms, accepts, and adopts the negative declaration that was issued by the ZBA for the Project, attached hereto as Exhibit "A", which shall be filed in the office of the Agency in a file that is readily accessible to the public;
- (2) A copy of this Resolution, together with the attachments hereto, shall be placed on file in the office of the Agency where the same shall be available for public inspection during business hours.

The question of the adoption of the foregoing resolution was duly put to vote on a roll call, which resulted as follows:

	<u>AYE</u>	<u>NAY</u>	<u>ABSENT</u>
Patrick Hogan	X		
Janice Herzog	X		
Victor Ianno	X		
Steve Morgan	X		
Susan Stanczyk			X
Kevin Ryan	X		
Fanny Villarreal	X		

The foregoing resolution was thereupon declared duly adopted.

STATE OF NEW YORK)
) ss.:
COUNTY OF ONONDAGA)

I, the undersigned Secretary of the Onondaga County Industrial Development Agency, DO HEREBY CERTIFY that I have compared the foregoing extract of the minutes of the meeting of the members of the Agency, including the Resolution contained therein, held on March 9, 2021, with the original thereof on file in my office, and that the same is a true and correct copy of such proceedings of the Agency and of such Resolution set forth therein and of the whole of said original so far as the same relates to the subject matter therein referred to.

I FURTHER CERTIFY that (A) all members of the Agency had due notice of said meeting, (B) said meeting was in all respects duly held, (C) pursuant to Article 7 of the Public Officers Law (the "Open Meetings Law"), as modified by New York State Executive Order 202.55, said meeting was open to the general public and due notice of the time and place of said meeting was duly given in accordance with such Open Meetings Law, and (D) there was a quorum of the members of the Agency present throughout said meeting.

I FURTHER CERTIFY that as of the date hereof, the attached Resolution is in full force and effect and has not been amended, repealed, or rescinded.

IN WITNESS WHEREOF, I have hereunto set my hand this 45 day of March, 2021.

(SEAL)

noney James

Exhibit A

Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project:

OYA Camillus A LLC		
Project Location (describe, and attach a general location map):		
6327 Van Alstine Road, Camillus NY; 43.073458, -76.314106		
Brief Description of Proposed Action (include purpose or need):		
The proposed project includes the construction of ground-mounted solar photovoltaid Camillus, New York. The system will be built within a 30.45 acre fenced area. The so project will include the construction of 2 gravel access roads, concrete electrical equi the utility grid.	plar array will generate up to 5 Megawatts	(MW) AC of power. The
OYA Camillus A LLC intends to build one of two separate projects on the land parce be subdivided into 2 distinct lots, with each individual lot containing a separate project approximately 220.18 acres in size. A separate project, named OYA Camillus B LLC	t. The land parcel hosting the OYA Camill	us A LLC project will be

i. Total number of structures452	
ii. Dimensions (in feet) of largest proposed structure: 10 height; 8 width; and 70 length	
iii. Approximate extent of building space to be heated or cooled:	
h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage? If Yes,	□Yes ☑No
 i. Purpose of the impoundment: ii. If a water impoundment, the principal source of the water: 	
ii. If a water impoundment, the principal source of the water:	ms [Other specify:]
iii. If other than water, identify the type of impounded/contained liquids and their source.	
iv. Approximate size of the proposed impoundment. Volume: million gallons; surface area:	acres
v. Dimensions of the proposed dam or impounding structure: height; length	
vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, con	crete):
D.2. Project Operations	
a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both?	DVas ZNa
(Not including general site preparation, grading or installation of utilities or foundations where all excavated	☐Yes☑No
materials will remain onsite)	
If Yes:	
i. What is the purpose of the excavation or dredging?	
ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?	
Volume (specify tons or cubic yards):	
Over what duration of time?	
iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispos	e of them.
iv. Will there be onsite dewatering or processing of excavated materials?	Yes No
If yes, describe.	
v. What is the total area to be dredged or excavated? acres vi. What is the maximum area to be worked at any one time? acres	
vi. What is the maximum area to be worked at any one time? acres	
vii. What would be the maximum depth of excavation or dredging?	
viii. Will the excavation require blasting?	☐Yes ☐No
ix. Summarize site reclamation goals and plan:	
b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment	✓ Yes No
into any existing wetland, waterbody, shoreline, beach or adjacent area? If Yes:	
 i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map num) 	
	or on one1:-
description): Federally regulated uppaged wetlands, federally regulated streams	per or geographic
description): Federally regulated unnamed wetlands, federally regulated streams	per or geographic

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of salteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square fe	structures, or
The project will not result in permanent loss to wetlands or waterbodies. The project requires placing solar array pane	
of wetland. This activity involves placing foundation structures in wetlands; the Corps of Engineers does not consider	this action a
regulated activity. No compensatory mitigation will be required by the Corps. In addition, woody vegetation will be re and intermittent stream banks. No work will occur within the federally regulated wetland boundary or ordinary high was	moved along wetland
iii. Will the proposed action cause or result in disturbance to bottom sediments?	✓Yes No
If Yes, describe: Foundations will be driven or screwed into the ground resulting in minimal disturbance to wetland soits.	M 1 C3 1140
iv. Will the proposed action cause or result in the destruction or removal of aquatic vegetation?	✓ Yes No
If Yes:	
 acres of aquatic vegetation proposed to be removed: <u>Vegetation removed is minimal and will only occur where po</u> 	sts are placed.
 expected acreage of aquatic vegetation remaining after project completion: 0.073 acres (small loss would not 	effect acreage)
purpose of proposed removal (e.g. beach clearing, invasive species control, boat access):	
Removal will only occur for racking foundations	
 proposed method of plant removal: <u>Plants would be removed due to pile driving posts or installing screw piles</u> if chemical/herbicide treatment will be used, specify product(s): Not applicable 	
v. Describe any proposed reclamation/mitigation following disturbance:	
No reclamation or mitigation is proposed, and is not warranted	
c. Will the proposed action use, or create a new demand for water? If Yes:	☐Yes Z No
i. Total anticipated water usage/demand per day: gallons/day	1
ii. Will the proposed action obtain water from an existing public water supply?	□Yes □No
If Yes:	
Name of district or service area:	
Does the existing public water supply have capacity to serve the proposal?	☐ Yes ☐ No
Is the project site in the existing district?	□Yes□No
Is expansion of the district needed?	□Yes□No
Do existing lines serve the project site?	□Yes□No
iii. Will line extension within an existing district be necessary to supply the project?	□Yes□No
If Yes:	
Describe extensions or capacity expansions proposed to serve this project:	
Source(s) of supply for the district:	
iv. Is a new water supply district or service area proposed to be formed to serve the project site?	☐ Yes☐No
If, Yes:	
Applicant/sponsor for new district:

c. Is the project site presently used by members of the community for public recreation? i. If Yes: explain:	☐Yes ✓ No
 d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? If Yes, i. Identify Facilities: 	☐ Yes No
e. Does the project site contain an existing dam?	☐ Yes ☑ No
If Yes:	1 csw_140
i. Dimensions of the dam and impoundment:	
Dam height: feet	
 Dam length: Surface area: feet 	
Volume impounded: gallons OR acre-feet ii. Dam's existing hazard classification:	
iii. Provide date and summarize results of last inspection:	
f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility Yes:	☐Yes☑No lity?
i. Has the facility been formally closed?	☐Yes☐ No
If yes, cite sources/documentation:	
ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:	
iii. Describe any development constraints due to the prior solid waste activities:	
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes:	☐ Yes ✓ No
i. Describe waste(s) handled and waste management activities, including approximate time when activities occurr	ed:
h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site?	✓Yes No
If Yes: i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:	□Yes□No
Yes – Spills Incidents database Provide DEC ID number(s): 9500159	
☐ Yes – Environmental Site Remediation database ☐ Neither database ☐ Neither database	
ii. If site has been subject of RCRA corrective activities, describe control measures: None	
None	
iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? If yes, provide DEC ID number(s):	□Yes☑No
iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):	
The spill case was closed December 31, 1995, due to a) the records and data submitted indicate that the necessary cleanup and re	emoval actions have
been completed and no further remedial activities are necessary, or b) the case was closed for administrative reasons. The Depart the right to require additional remedial work in relation to the spill, if in the future it determines that further action is necessary.	ment however reserve

v. Is the project site subject to an institutional control	limiting property uses?		☐ Yes ☑ No
If yes, DEC site ID number:			
 Describe the type of institutional control (e.g. Describe any use limitations: 	., deed restriction or easement):		
Describe any use miniations. Describe any engineering controls:			
 Describe any engineering controls: Will the project affect the institutional or engineering 	rineering controls in place?		□Yes□No
Explain:			
E.2. Natural Resources On or Near Project Site			
a. What is the average depth to bedrock on the project	site?	6 feet	
b. Are there bedrock outcroppings on the project site?			☐ Yes ☑ No
If Yes, what proportion of the site is comprised of bed	rock outcroppings?	%	
c. Predominant soil type(s) present on project site:	Ontario gravelly loam	36.8 %	
	Honeyoye, Lansing, Ontario soils	48.6 %	
	Ontario and Madrid soils	12.4 %	
d. What is the average depth to the water table on the	project site? Average: >6 fe	et	
e. Drainage status of project site soils: Well Draine	d: 98.4 % of site		
✓ Moderately			
Poorly Drain	ned1.2% of site		
f. Approximate proportion of proposed action site with	· - -	1.6 % of site	
	10-15%:	% of site	
	☑ 15% or greater:	98.4 % of site	200
g. Are there any unique geologic features on the proje If Yes, describe:			☐ Yes ✓ No
h. Surface water features.			
i. Does any portion of the project site contain wetlan	ds or other waterbodies (including stre	eams, rivers,	✓ Yes ☐ No
ponds or lakes)? ii. Do any wetlands or other waterbodies adjoin the property of the property			
If Yes to either i or ii, continue. If No, skip to E.2.i.	oject site?		✓Yes□No
iii. Are any of the wetlands or waterbodies within or a	adjoining the project site regulated by	any fadaral	✓Yes□No
state or local agency?	adjoining the project site regulated by	ally leucial,	Z I CSLINO
iv. For each identified regulated wetland and waterbo	dy on the project site, provide the foll	owing information:	
Streams: Name Federal intermittent s		Classification D	
Lakes or Ponds: Name		Classification	
 Wetlands: Name CAM-24, and unname Wetland No. (if regulated by DEC) CAM-24 	ed federal wetlands	Approximate Size 35.77 a	cres within parcel
v. Are any of the above water bodies listed in the mos	t recent compilation of NVS water or	ality-impaired	□Yes ✓No
waterbodies?	a rooting compliant of 1418 water qu	anty-impaired	1 62 110
If yes, name of impaired water body/bodies and basis	for listing as impaired:		
i. Is the project site in a designated Floodway?		· · · · · · · · · · · · · · · · · · ·	☐Yes ☑No
j. Is the project site in the 100-year Floodplain?			☐Yes ✓No
k. Is the project site in the 500-year Floodplain?			☐Yes ☑No
l. Is the project site located over, or immediately adjointf Yes:	ning, a primary, principal or sole sou	ce aquifer?	✓ Yes □No
i. Name of aquifer: Principal Aquifer, Primary Aquifer			
		<u> </u>	

 Identify the predominant wildlift white-footed mouse 			
	white-tailed deer	eastern cottontail	
meadow vote	red-tailed hawk	eastern wild turkey	
n. Does the project site contain a des If Yes: i. Describe the habitat/community			☐Yes Z No
 ii. Source(s) of description or evaluation. iii. Extent of community/habitat: Currently: Following completion of present or loss (indicate + or loss). o. Does project site contain any specific contains any specific contains. 	roject as proposed: -): cies of plant or animal that is list it contain any areas identified as	acres	✓ Yes No species?
Committee Commit			
 p. Does the project site contain any special concern? If Yes: i. Species and listing: 	species of plant or animal that is	s listed by NYS as rare, or as a species of	Yes No
q. Is the project site or adjoining are If yes, give a brief description of ho	a currently used for hunting, trap w the proposed action may affec	pping, fishing or shell fishing?	□Yes ☑ No
E.3. Designated Public Resources	On or Near Project Site		
	of it, located in a designated agriticle 25-AA, Section 303 and 30	cultural district certified pursuant to 04?	☑ Yes No
i. If Yes: acreage(s) on project site ii. Source(s) of soil rating(s): Web	e? 26.2 (within limits of disturbance)		Z Yes □No
c. Does the project site contain all of Natural Landmark? If Yes: i. Nature of the natural landmark: ii. Provide brief description of land	☐ Biological Community		□Yes ☑ No
d. Is the project site located in or do If Yes: i. CEA name: ii. Basis for designation: iii. Designating agency and date:			□Yes☑No

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commission Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Place If Yes:	Yes No ner of the NYS ces?
i. Nature of historic/archaeological resource: Archaeological Site Historic Building or District	
iii. Brief description of attributes on which listing is based:	
f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	∐Yes ☑No
g. Have additional archaeological or historic site(s) or resources been identified on the project site? If Yes: i. Describe possible resource(s):	Yes No
ii. Basis for identification:	
h. Is the project site within fives miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? If Yes:	Yes No
 i. Identify resource: ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or s 	agenia burnun
	cenic byway,
iii. Distance between project and resource: miles.	
 i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? If Yes: i. Identify the name of the river and its designation: 	Yes No
ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?	□Yes □No
F. Additional Information Attach any additional information which may be needed to clarify your project. If you have identified any adverse impacts which could be associated with your proposal, please describe those impressures which you propose to avoid or minimize them.	pacts plus any
G. Verification I certify that the information provided is true to the best of my knowledge.	
Applicant/Sponsor Name Bryan A. Bayer, C&S Engineers, Inc. Date January 18, 2021	
Signature Title Managing Environmental Scientist	

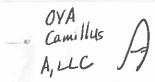

Disclaimer: The EAF Mapper is a screening tool intended to assist project sponsors and reviewing agencies in preparing an environmental assessment form (EAF). Not all questions asked in the EAF are answered by the EAF Mapper. Additional information on any EAF question can be obtained by consulting the EAF Workbooks. Although the EAF Mapper provides the most up-to-date digital data available to DEC, you may also need to contact local or other data sources in order to obtain data not provided by the Mapper. Digital data is not a substitute for agency determinations.

B.i.i [Coastal or Waterfront Area]	No
B.i.ii [Local Waterfront Revitalization Area]	No
C.2.b. [Special Planning District]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h [DEC Spills or Remediation Site - Potential Contamination History]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h.i [DEC Spills or Remediation Site - Listed]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h.i [DEC Spills or Remediation Site - Environmental Site Remediation Database]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h.iii [Within 2,000' of DEC Remediation Site]	No
E.2.g [Unique Geologic Features]	No
E.2.h.i [Surface Water Features]	No
E.2.h.ii [Surface Water Features]	Yes
E.2.h.iii [Surface Water Features]	Yes - Digital mapping information on local and federal wetlands and waterbodies is known to be incomplete. Refer to EAF Workbook.
E.2.h.v [Impaired Water Bodies]	No
E.2.i. [Floodway]	No
E.2.j. [100 Year Floodplain]	No
E.2.k. [500 Year Floodplain]	No
E.2.I. [Aquifers]	Yes
E.2.I. [Aquifer Names]	Principal Aquifer, Primary Aquifer
E.2.n. [Natural Communities]	No
E.2.o. [Endangered or Threatened Species]	Yes

Name]	
E.2.p. [Rare Plants or Animals]	No
E.3.a. [Agricultural District]	Yes
E.3.a. [Agricultural District]	ONON003
E.3.c. [National Natural Landmark]	No
E.3.d [Critical Environmental Area]	No
E.3.e. [National or State Register of Historic Places or State Eligible Sites]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.3.f. [Archeological Sites]	No
E.3.i. [Designated River Corridor]	No

Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	zenzy use Only [If applicable]
Project:	
Date:	

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general
 question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

 Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) If "Yes", answer questions a - j. If "No", move on to Section 2. 	□no		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d	Þ	
b. The proposed action may involve construction on slopes of 15% or greater.	E2f	ŢP'	
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a	Ø	
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a	X	
c. The proposed action may involve construction that continues for more than one year or in multiple phases.	Dle	Ø	
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q	牙	
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	Bli	K	
h. Other impacts:		内	

*			
2. Impact on Geological Features The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g) If "Yes", answer questions a - c. If "No", move on to Section 3.	t Muo) [1]	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	E3c		
c. Other impacts:			
	2		
3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) If "Yes", answer questions a - 1. If "No", move on to Section 4.	□NO	Ø	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h	Ţ.	
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b	0.	
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a	ф.	
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h	П.	
c. The proposed action may create turbidity in a waterbody, either from upland crosion, runoff or by disturbing bottom sediments.	D2a, D2h		
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c	<i> </i> -	
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e		0
The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h	P	<u> </u>
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h	ф	
k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	Dia, D2d		

1. Other impacts:		73	
4. Impact on groundwater The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t) If "Yes", answer questions a - h. If "No", move on to Section 5.	er.		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c		
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source:	D2c		
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	Dla, D2c		
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l		
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l		
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		
h. Other impacts:			
5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) If "Yes", answer questions a - g. If "No", move on to Section 6.	No		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i	0	
b. The proposed action may result in development within a 100 year floodplain.	F2j		
c. The proposed action may result in development within a 500 year floodplain.	E2k		
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e		
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k		
f. If there is a dam located on the site of the proposed action, is the dam in need of repair,	Elc		

g.	Other impacts:		4	,	
			1:		
6.	Impacts on Air The proposed action may include a state regulated air emission source. (See Part 1. D.2.f., D.2.h, D.2.g) If "Yes", answer questions a -f. If "No", move on to Section 7.	Myo)		YES
		Relevant Part I Question(s)	No, o sma impa may o	II ect	Moderate to large impact may occur
	If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: i. More than 1000 tons/year of carbon dioxide (CO ₂) ii. More than 3.5 tons/year of nitrous oxide (N ₂ O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs) iv. More than .045 tons/year of sulfur hexafluoride (SF ₆) v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions vi. 43 tons/year or more of methane	D2g D2g D2g D2g D2g D2g	0000		
	The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g			
	The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g			
	The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g			
	The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s			
f. (Other impacts:				
7.	Impact on Plants and Animals The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. r If "Yes", answer questions a - j. If "No", move on to Section 8.	nq.)	□NC)	YES
		Relevant Part I Question(s)	No, o sma impa may o	n ct	Moderate to large impact may occur
	The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E20	P	1	
	The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o	4		
	The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p			
	The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal covernment.	E2p			

e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.	Е3с	4	
f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community. Source:	E2n		
g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.	E2m		0
h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat. Habitat type & information source:	Е1Ь		
i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.	D2q	9	
j. Other impacts:		Ь	
	1		
8. Impact on Agricultural Resources The proposed action may impact agricultural resources. (See Part 1. E.3.a. a If "Yes", answer questions a - h. If "No", move on to Section 9.	nd b.)	□NO	YES
	Relevant	No, or	Moderate
	Part I Question(s)	small impact may occur	to large impact may occur

 b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc). c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land. d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 	Part I Question(s) E2c, E3b E1a, E1b	small impact may occur	to large impact may occur
 b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc). c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land. d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District. e. The proposed action may disrupt or prevent installation of an agricultural land 	Part I Question(s) E2c, E3b E1a, E1b E3b E1b, E3a	small impact may occur	to large impact may occur
 b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc). c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land. d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District. e. The proposed action may disrupt or prevent installation of an agricultural land management system. f. The proposed action may result, directly or indirectly, in increased development 	Part I Question(s) E2c, E3b E1a, E1b E3b E1b, E3a E1 a, E1b C2c, C3,	small impact may occur	to large impact may occur
 b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc). c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land. d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District. e. The proposed action may disrupt or prevent installation of an agricultural land management system. f. The proposed action may result, directly or indirectly, in increased development potential or pressure on farmland. g. The proposed project is not consistent with the adopted municipal Farmland 	Part I Question(s) E2c, E3b E1a, E1b E3b E1b, E3a El a, E1b C2c, C3, D2c, D2d	small impact may occur	to large impact may occur

9. Impact on Aesthetic Resources The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.) If "Yes", answer questions a - g. If "No", go to Section 10.	Kano) [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.	E3h		
b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.	E3h, C2b		
c. The proposed action may be visible from publicly accessible vantage points: i. Seasonally (e.g., screened by summer foliage, but visible during other seasons) ii. Year round	E3h		
d. The situation or activity in which viewers are engaged while viewing the proposed action is: i. Routine travel by residents, including travel to and from work ii. Recreational or tourism based activities	E3h E2q, E1c	00	00
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h		
f. There are similar projects visible within the following distance of the proposed project: 0-1/2 mile ½-3 mile 3-5 mile 5+ mile	Dla, Ela, Dlf, Dlg		
g. Other impacts:			
10. Impact on Historic and Archeological Resources The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.) If "Yes", answer questions a - e. If "No", go to Section 11.	Dho) [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on the National or State Register of Historical Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.	E3e		
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f		
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory. Source:	E3g		

d. Other impacts:			
If any of the above (a-d) are answered "Moderate to large impact may e. occur", continue with the following questions to help support conclusions in Part 3:			
 The proposed action may result in the destruction or alteration of all or part of the site or property. 	E3e, E3g, E3f		
 The proposed action may result in the alteration of the property's setting or integrity. 	E3e, E3f, E3g, E1a, E1b		
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3		
11. Impact on Open Space and Recreation The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan. (See Part 1. C.2.c, E.1.c., E.2.q.) If "Yes", answer questions a - e. If "No", go to Section 12.	Mu	D [YES
	Relevant Part I Question(s)	No, or smail impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p		
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q		
c. The proposed action may eliminate open space or recreational resource in an area with few such resources.	C2a, C2c E1c, E2q		
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c		
e. Other impacts:			
12. Impact on Critical Environmental Areas The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d) If "Yes", answer questions a - c. If "No", go to Section 13.	M	0 [YES
y res , answer questions b - c. If 140 , go to bection 13.	Relevant	No, or	Moderate
	Part I Question(s)	small impact may occur	to large impact may occur
The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d		
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d		
c. Other impacts:			

13. Impact on Transportation The proposed action may result in a change to existing transportation systems (See Part 1. D.2.j) If "Yes", answer questions a - f. If "No", go to Section 14.	i. Din	D []	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j		
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j		
c. The proposed action will degrade existing transit access.	D2j		
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j		
e. The proposed action may alter the present pattern of movement of people or goods.	D2j		
f. Other impacts:			
14. Impact on Energy The proposed action may cause an increase in the use of any form of energy. (See Part 1. D.2.k) If "Yes", answer questions a - e. If "No", go to Section 15.	Min	о <u></u>	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action will require a new, or an upgrade to an existing, substation.	D2k		
b. The proposed action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two-family residences or to serve a commercial or industrial use.	D1f, D1q, D2k		
c. The proposed action may utilize more than 2,500 MWhrs per year of electricity.	D2k		
d. The proposed action may involve heating and/or cooling of more than 100,000 square feet of building area when completed.	Dlg		
e. Other Impacts:			
		1	1
15. Impact on Noise, Odor, and Light The proposed action may result in an increase in noise, odors, or outdoor ligh (See Part 1. D.2.m., n., and o.) If "Yes", answer questions a - f. If "No", go to Section 16.	ting. NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may produce sound above noise levels established by local regulation.	D2m		
b. The proposed action may result in blasting within 1,500 feet of any residence, hospital, school, licensed day care center, or nursing home.	D2m, E1d		

d. The proposed action may result in light shining onto adjoining properties.	D2n		
e. The proposed action may result in lighting creating sky-glow brighter than existing area conditions.	D2n, E1a		
f. Other impacts:			
16. Impact on Human Health The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and If "Yes", answer questions a - m. If "No", go to Section 17.	ction may have an impact on human health from exposure NO YES ng sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and h.)		YES
	Relevant Part I Question(s)	No,or small impact may eccur	Moderate to large impact may occur
The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.	Eld		
b. The site of the proposed action is currently undergoing remediation.	Elg, Elh		
c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.	Elg, Elh		
d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).	Elg, Elh		
e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.	Elg, Elh		
f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.	D2t		
g. The proposed action involves construction or modification of a solid waste management facility.	D2q, E1f		
h. The proposed action may result in the unearthing of solid or hazardous waste.	D2q, E1f		
 The proposed action may result in an increase in the rate of disposal, or processing, of solid waste. 	D2r, D2s		
j. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	Elf, Elg Elh		
k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	Elf, Elg		
The proposed action may result in the release of contaminated leachate from the project site.	D2s, E1f, D2r		
m. Other impacts:			

17. Consistency with Community Plans The proposed action is not consistent with adopted land use plans. (See Part 1. C.1, C.2. and C.3.) If "Yes", answer questions a - h. If "No", go to Section 18.	Йио	Y	ÆS
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action's land use components may be different from, or in sharp contrast to, current surrounding land use pattern(s).	C2, C3, D1a E1a, E1b		
 b. The proposed action will cause the permanent population of the city, town or village in which the project is located to grow by more than 5%. 	C2		
c. The proposed action is inconsistent with local land use plans or zoning regulations.	C2, C2, C3		
d. The proposed action is inconsistent with any County plans, or other regional land use plans.	C2, C2		
e. The proposed action may cause a change in the density of development that is not supported by existing infrastructure or is distant from existing infrastructure.	C3, D1c, D1d, D1f, D1d, Elb		
f. The proposed action is located in an area characterized by low density development that will require new or expanded public infrastructure.	C4, D2c, D2d D2j		
g. The proposed action may induce secondary development impacts (e.g., residential or commercial development not included in the proposed action)	C2a		
h. Other:		0	
18. Consistency with Community Character The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3) If "Yes", answer questions a - g. If "No", proceed to Part 3.	NO		/ES
The proposed project is inconsistent with the existing community character.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3)	Part I	No, or small impact	Moderate to large impact may
The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3) If "Yes", answer questions a - g. If "No", proceed to Part 3. a. The proposed action may replace or eliminate existing facilities, structures, or areas	Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3) If "Yes", answer questions a - g. If "No", proceed to Part 3. a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community. b. The proposed action may create a demand for additional community services (e.g.	Part I Question(s) E3e, E3f, E3g	No, or small impact may occur	Moderate to large impact may occur
The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3) If "Yes", answer questions a - g. If "No", proceed to Part 3. a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community. b. The proposed action may create a demand for additional community services (e.g. schools, police and fire) c. The proposed action may displace affordable or low-income housing in an area where	Part I Question(s) E3e, E3f, E3g C4 C2, C3, D1f	No, or small impact may occur	Moderate to large impact may occur
The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3) If "Yes", answer questions a - g. If "No", proceed to Part 3. a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community. b. The proposed action may create a demand for additional community services (e.g. schools, police and fire) c. The proposed action may displace affordable or low-income housing in an area where there is a shortage of such housing. d. The proposed action may interfere with the use or enjoyment of officially recognized	Part I Question(s) E3e, E3f, E3g C4 C2, C3, D1f D1g, E1a	No, or small impact may occur	Moderate to large impact may occur
The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3) If "Yes", answer questions a - g. If "No", proceed to Part 3. a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community. b. The proposed action may create a demand for additional community services (e.g. schools, police and fire) c. The proposed action may displace affordable or low-income housing in an area where there is a shortage of such housing. d. The proposed action may interfere with the use or enjoyment of officially recognized or designated public resources. e. The proposed action is inconsistent with the predominant architectural scale and	Part I Question(s) E3e, E3f, E3g C4 C2, C3, D1f D1g, E1a C2, E3	No, or small impact may occur	Moderate to large impact may occur

Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
 occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
 occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
 there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
 environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that
 no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

	Determination	on of Significance	- Type 1 and	Unlisted Actions	
SEQR Status:	Type 1	Unlisted			
Identify portions of	EAF completed for this F	Project: Part t	Part 2	Part 3	
-	· · ·				FEAF 2019

Upon review of the information recorded on this EAF, as noted, plus this additional support information
and considering both the magnitude and importance of each identified potential impact, it is the conclusion of theas lead agency that:
A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.
B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:
There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).
C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
Name of Action: Tupe /
Name of Lead Agency: ZBA
Name of Responsible Officer in Lead Agency: Robert Chapt
Title of Responsible Officer: Chair Man
Signature of Responsible Officer in Lead Agency: Date: May Z-Zozs
Signature of Preparer (if different from Responsible Officer) Date:
